

There have been some changes to our audio-visual collection. Checkout fees for DVDs and recorded books are no more, and the Library's staff has been working hard to make our entire AV collection self-checkable.

Haven't used the self-check machines yet? Give them a try next time there's a line at the front desk. In the meantime, take a look at the list below of books on CD titles we've added in the last six months.

You can check a title's availability online (<http://catalog.plsinfo.org/>) then call our reference desk at 330-2520 – we'd be happy to set aside an in stock item for your pickup. We hope that you will soon be able to place your own reserves on these popular items.

Books on CD added since 05/02/07 (List run on 11/16/07)

## Nonfiction (Includes some lecture series from the Teaching Company)
