

**Burnsville Maintenance Crews Are Taking it to the Streets for Pothole Repair  
- 4/17/2002**

If you see a pothole on a city street in Burnsville, the City of Burnsville wants to hear from you! The Burnsville Street Department will be out in force this spring in an attempt to fill potholes more quickly than in past years. Although city crews will be on the lookout for potholes to fill, responding to requests for service is a key component of the plan. If you spot a pothole on a city street just call the city's voicemail line 24 hours-a-day at 952-895-4665 or contact the street department directly at 952-895-4550. A city staff person will return your phone call and/or provide information on when the pothole will be filled.
